PROFILE

I am an Information System Graduate with strong skills in problem-solving ,system analysis, design, and management. Eager to apply my theoretical knowledge and hands-on experience to real-word challenges in a dynamic and changing environment.

WORK EXPERIENCE

Hibret Bank S.C. Ethiopia , Head Office JULY 2024 - SEPTEMBER 2024

System Development Intern

- Developed core functionalities for a School Management System, including user registration and secure login.
- Gained practical experience in account management, customer handling, compliance, and financial documentation.
- Applied up-to-date security frameworks to maintain system integrity.
- Collaborated with cross-functional teams to identify user requirements and improve system performance.
- Documented technical processes and contributed to internal training resources for new interns and junior developers.
- Assisted in troubleshooting and resolving user-reported issues to enhance overall system reliability.
